SKILLS

- Next 13（React Js）
- Svelte-Kit（Svelte）
- Express（Node Js）
- Django（Python）
- Ruby On Rails（Ruby）
- PostgreSQL
- Mongo DB
- Redis

ADDITIONAL SKILLS

- Git (GitHub)
- Docker
- Ai Integration
- Responsive Design
- TypeScript

SUMMARY

I am a Software Engineer driven by a passion for innovative solutions that push the boundaries of technology. I excel in both front-end and back-end development, creating aesthetically designed apps with high performance using modern technology. I am proficient in Python, JavaScript, C++, and Java.

SHOWCASE

Kioku (Next 13) — Productivity/ Project Management

An aesthetic app that can manage tasks, notes, goals ,achievements and habit tracking features. I used **Next 13** (latest technology) with **Tailwind** and **Next-auth** for authentication. I also have ideas to add collaboration features for larger corporations but I focused on other apps to apply my knowledges.

Kazeki (Next 13) — Freelancing/ Job-seeking Platform

A web app to fill a gap between job-seeking and freelancing platforms to make a platforms to connects job-seekers, freelancers and clients. crafted with **Next 13** (latest technology) using **next-auth** for authentication and **role-based authentication** for clients and job-seeker.

Kensa (MEVN) — Real-time/Real-data Web-scraping

In demand web-app for web-scraping to get data and insights for this competitive world of technology. I used **Vue Js** as frontend framework, **Shadcn-ui** for my ui choice and most importantly **Express** for backend and **Puppeteer** for my web-scraping library.

Kenkei (Next 13) — Real-time chat-app

A real time chat app using **Next 13** ,**Redis** as a choice for my databse to boost the performance. I also used **Tailwind** for design and **Pusher-js** for real-time features. I also added video calling features using **WebRTC**.

EDUCATION

University of People (California) — 2022 - Current
Bachelor of Computer Science

Technical Institude (Mandalay) — 2020 - 2022
Studies interrupted due to political instabilities in my country

Technological Technological High-School — 2018 - 2020
A Diploma as a technician and high-school equivalent education.
